

GC Electrical &
Building Services Ltd.

True Student Accommodation, Leicester

AT A GLANCE

Client: True Student

Value: £35k

Duration: Three months

Scope: Refurbishment of student gym

GC Electrical & Building Services Ltd, part of GAM Group, successfully delivered an electrical project at True Student accommodation in Leicester.

Completed over three months and handed over in August 2025, the works focused on a full regeneration of the student gym.

GC Electrical managed all lighting and power installations, transforming the space into a modern, future-ready environment. Their expertise ensured seamless integration of new systems, combining functionality with design impact to create a gym that supports student wellbeing and community.

As part of GAM Group, GC Electrical benefits from the strength of a nationwide network. While Leicester showcases their electrical delivery, GAM Group's in-house teams and partners are currently active across Canterbury, Hertford, Swansea, Central London, Dorking, Ealing, and Peterborough.

This project highlights GC Electrical's role as the people who delivered the works, while demonstrating how collaboration within GAM Group continues to shape modern environments across the UK.
