

# Leatherhead Leisure Centre Refurbishment

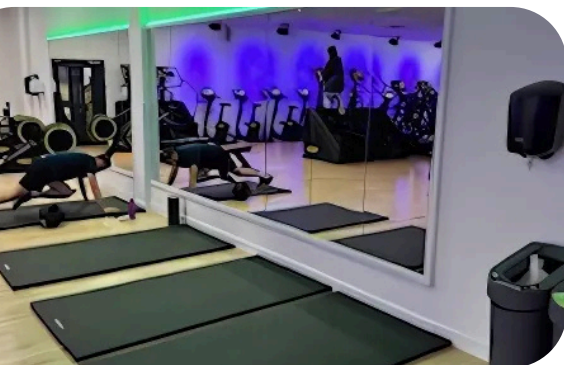

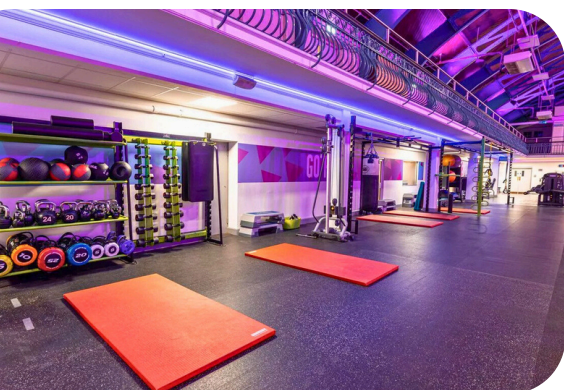

## AT A GLANCE

**Client:** Greenwich Leisure Limited (GLL)  
on behalf of Corrigan and Chapman

**Value:** £200k

**Date:** November 2024

**Scope:** New Ceilings and Repairs; Full  
Decoration; Flooring; Lighting and  
Electrical Upgrades; New Joinery.

## OVERVIEW

GAM Construction successfully completed phase one of the ongoing refurbishment project at Leatherhead Leisure Centre, in Fetcham.

Undertaken on behalf of Corrigan and Chapman and managed by Greenwich Leisure Limited (GLL), we aimed to transform the 800-square-metre gym facilities within the fully operational leisure centre, thereby contributing to the mission of fostering a healthier Britain.

The initial phase entailed a comprehensive strip-out of the existing gym area, followed by a meticulous refurbishment that will revolutionise the adult and junior fitness offering at the centre.

## CHALLENGES & SOLUTIONS

Refurbishing a gym within a functioning leisure centre posed unique challenges. We had to ensure that the refurbishment works did not disrupt the daily operations of the centre.

By implementing strategic planning and phased construction, the team managed to minimise disruption, ensuring that leisure centre visitors could continue their activities safely and comfortably.

## OUTCOME

The successful completion of phase one has significantly improved the gym facilities at Leatherhead Leisure Centre. The new ceilings and repairs, full decoration, upgraded flooring, and state-of-the-art lighting and electrical systems have revitalised the space. These enhancements not only uplift the physical environment but also inspire users to engage more actively in their fitness routines, thereby supporting the broader goal of promoting a healthier Britain.

The collaboration between GAM Construction, GLL, and Corrigan and Chapman exemplifies a seamless partnership focused on quality and community wellbeing. As the project progresses into subsequent phases, this initiative is set to continue making impactful contributions to public health and fitness.

The Leatherhead Leisure Centre refurbishment project demonstrates GAM Construction's commitment to excellence and our capability to deliver high-quality construction services within operational facilities. This project underscores the importance of thoughtful design, careful execution, and effective collaboration in creating spaces that enhance community health and wellness.
